

# THERMOMETER WELLS

## THERMOWELLS FOR BULBS

TEMTEX manufactures thermowells of many types and styles. The following pages will illustrate the different types and styles that are designed primarily for thermometers. These include Bi-metal, Vapor Actuated, Gas Actuated, and any other type of instrument that uses a standard length and diameter sensing bulb.

THERMOCOUPLES and RTD's have varied immersion depths and design characteristics as illustrated in the catalog " THERMOWELLS FOR THERMOCOUPLES"

TEMTEX can also manufacture custom thermowells for your particular application or design. We specialize in complete fabrication and assembly for any of your construction projects.

TEMTEX will furnish complete approval drawings and specifications for your approval along with flow and vibration calculations if required.

### HOW TO ORDER "THERMOMETER WELLS"

SERIES NO.	NPT PROCESS THREAD SIZE	MATERIAL (SEE TABLE)	"S" STEM LENGTH	OPTIONS AS APPLY
------------	----------------------------	-------------------------	--------------------	---------------------

#### MATERIAL CODES

304 STAINLESS	P	BRASS	BR
304L STAINLESS	PL	NICKEL 200	M
316 STAINLESS	R	MONEL 400	L
316L STAINLESS	RL	INCONEL 600	J
1018 CARBON STEEL	N	INCONEL 625	G
A-105 FORGED STEEL	T	INCOLOY 800	F
F22 ALLOY STEEL	B	HASTALLOY B	HB
CARPENTER 20CB	C	HASTALLOY C	HC
TITANIUM	TI	HASTALLOY D	HD
		HASTALLOY G	HG

Stock material for prompt shipment- 304 S/S "P", 316 S/S "R", BRASS "BR"
